**Explore Some of my greatest work**

## About Me!

I am someone who loves to design, I Love Video Editing, Photoshopping, Web Design and Animation! Ever since I was a kid, I always wanted to be an animator. When I first came to college, being a web design wasn't my original idea but after taking classes for, I took a liking to it, so this is something I would love to do on the side. I have a good understanding of Photoshop, Premiere, Dreamweaver and After Effects..
